

Getting Settled...

September 20, 2008

Hi all!

Renee and I are getting settled in our house finally. We have had two wonderful services here so far and looking forward to tomorrow's. I will tell you all about them in my report later next month.

I just wanted to let you all know that we now have a US phone number that rings our computer. We can talk through that very cheap for us and whatever it cost you to ring any number within the US! Our Number is:

(813)377-3702

The program did not have any Tennessee area codes available so we figured Tampa would be the next most familiar area code. We will not have consistent internet access until October 1st, so we will not be available 24/7.

We Love You All and Thanks for Your Prayers,

Heath and Renee Robertson
