Beloved brethren in Gainesville, Florida,

With a lot of pleasure I share with you that that the Lord it allowed us to make during this month of April of the present year 2007.

Evangelism:

We continue announcing the salvation gospel, and we have good contact with people among weeks. And in our meetings of every Sunday we don't leave of being visited by some of these people. I request your prayers so that these people with whom we are studying the salvation plan can obey our God with readiness.

Edification:

In the area of the edifying this servant has been shown very interested in the growth and the saints' invigoration in Campo Bruce.

The day Wednesday we are concluding the epistle to the Philippians.

The day Saturday we are studying John's book, we are already a little more before half of the book.

The day Thursday we maintain studies for workers' training. Some of the men of this congregation are already beginning to present sermons on Sundays to the congregation, but they are also learning how to evangelize the friends.

Study series:

During this last week of April, the saints of Campo Bruce finished a series of studies on the dinner of the Lord and the marriage.

This servant feels very satisfied of the results of these studies, because the local saints are always growing in knowledge. I give thanks to my God that allows to this servant the time and the capacity to investigate his word to be able to teach to others.
