

# NYLSTROOM NEWS

May 8, 2007

IMPORTANT - EVERYONE

Please change our email address to LMAYDELL@gmail.com  
We will shortly be getting rid of our old email address (lmaydell@worldonline.co.za).

Trouble receiving our newsletters:

If you have been receiving our newsletters for the past six months, you do not have to worry about reading the rest of this email. If you have not been hearing from us lately, please read on.

About six months ago, we got a gmail account and decided to start sending our newsletters via gmail because it is a lot cheaper and easier. One of the features that makes it easier is that I am allowed to send to many more people at a time on gmail. Using my old email address, I had to send my newsletter 14 different times (about 20 names per list) – and each time took about 10 minutes. Using gmail, I only have to send my newsletter twice.

When we got to the USA, we discovered that several people had never received our newsletters when we were using gmail. It seems that their servers were considering our newsletters to be junk mail (probably because they were sent to so many recipients at a time). We did not know that these people were not receiving our emails because they were not returned to us.

Therefore we have decided to send everyone one last email (this one) using our old server (worldonline) and explaining the situation. At the same time we are sending every person on our list our newsletter in a separate email using our new server (gmail). So if you get this email, but no newsletter, you will know that our newsletters are likely being sent to your junk mail folder. Maybe you just need to add our new email address to your “safe senders” list.

If you are still having trouble, please write to us and we will try sending you your newsletter in a list with 20 or less recipients.

We are truly sorry about the inconvenience.

Yours in Christ, Les & Linda Maydell
