

REPORT FOR OCTOBER 2007

November 3, 2007

On Wednesday the 3rd, the church had invited Ronald & Gregory Roark to visit with us. Ronald is from the US and Gregory, his son, lives and works with the church in Cagua, in Aragua state. Ronald taught about the culture of a city and its negative effect on the things of God—an important and interesting study. On the 28th my wife and I visited the church in Palo Verde, who had invited me to preach.

During this month we continue to place the newspaper ad offering Bible study and tracts about the Bible, and just as in the past months, there was good acceptance of it by people from different regions of the country. From the city of Turmero, in Aragua state, a young man named Gabriel Garcia responded. I put him in contact with the church in Cagua, since the two cities are close.

I continue handing out tracts inviting people to study with us during the week. I also continue studying with my contacts, three of which were set up from the newspaper ads. One of them, Roberto Carpio, visited our service on Sunday the 7 th.

In the men's meeting that took place on Sunday the 28 th, we agreed to begin anew the men's Bible study, and to thus give an opportunity to each man to teach the study (rotating them). Our hope is that this will encourage each one to prepare themselves to teach.

Once again and as always I express my eternal gratitude to all of you, my beloved brethren, for your help and care for the Lord's work, that His Word may be preached in every place. I pray for you all, thanking God for you and asking His many blessings on you.

Your brother,

Gerardo Hernandez
Caracas, Venezuela
